

# SAR-SSI 2012 : May 22-25, 2012 – Cabourg, France

## 7<sup>th</sup> Conference on “Security of Network architectures and Information Systems”

### ORGANIZATION

### IMPORTANT DATES

**Submission:** December 15<sup>th</sup>, 2011

**Notification:** February 15, 2012

**Conference:** May 22-25, 2012

### COMMITTEES

#### General Co-Chairs

- C. Rosenberger, GREYC - ENSICAEN
- M. Achemlal, Orange Labs

#### Technical Program Committee Chair

- P. Urien, Telecom ParisTech

#### Steering Committee

- A. Bouabdallah, UTC
- D. Boulanger, Lyon 3
- I. Chrisment, Nancy I
- A. Gabillon, UPF
- A. Serhrouchni, Telecom Paris Tech

### LOCATION

SARSSI-2012 will take place Cabourg, (France).

You can find more information on how to get there on the conference web site.

### SPONSORS

### CALL FOR PAPERS

<https://sarssi2012.greyc.fr/>

SARSSI-2012 provides a forum for presenting research results, practical experiences and innovative ideas in network and information systems security. The goal of this event is to provide a framework for exchanges among academic researchers, industry and a broader audience interested in network and system security. The conference will offer a broad area of events, ranging from panels, tutorials, technical and scientific presentations and informal meetings. SAR-SSI 2012 will take place in Cabourg, Normandy (France).

Prospective authors are encouraged to submit papers offering novel research contributions in network and system security as well as proposals for tutorials and panels. Submissions can address both theoretical issues in network and system security or provide practical and operational experiences in security management. French or English languages could be used for papers. The oral presentations will be done in French.

### TOPICS

Authors are invited to submit research papers, papers presenting an experience or industrial applications or tutorials on topics related to network and information systems security. You can find a non-exhaustive topics list on the conference web site.

### PANEL PROPOSALS

The conference may include panel sessions addressing topics of interest to the computer security community. Proposals for panels should include possible panelists and an indication of which of those panelists have confirmed participation. Please submit panel proposals by email to the TPC Chair.

### JOURNAL PUBLICATION

Authors of the best papers selected by the technical program committee will be invited to publish an extended version of their paper in a journal of international audience.

### TUTORIALS

The conference will include a tutorial and prominent invited speakers sessions. The tutorials will address hot research and/or industry topics relating to network and information systems security. Please submit tutorial proposals by email to the TPC Chair.
